MENU TUCK 1

A menu tuck is a great way to display your menu neatly tucked into your favourite Dandi napkin.

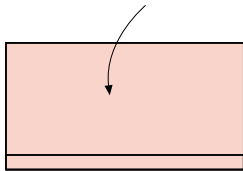

STEP ONE

Lay the napkin face down on the table.

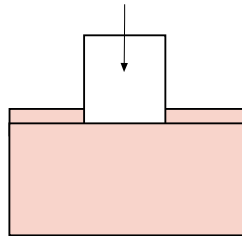

STEP TWO

Fold both top and bottom edges in by about 4 cm.

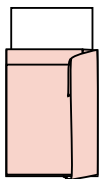

STEP THREE

Fold the top down 2cm from the bottom edge.

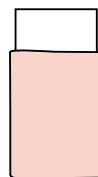

STEP FOUR

Turn the napkin around so that the gap is at the top and slide your menu in the middle in between the napkin.

STEP FIVE

Once the menu is in turn the napkin over and fold the left and right sides over making sure you slip the left side in between the right fold.

STEP SIX

Turn the napkin with menu tucked inside back over and place on your table setting.
